# Bulk Aadhaar Seeding

ESIC is a social security organization under Ministry of Labour and Employment which provides medical and cash benefits in the exigencies of sickness, maternity, disablement, death, employment injury and unemployment to the workers in the lower wage bracket and their family members. Designed for those in the lower wage category, the ESI Scheme operates on contributions from both employers and employees at predetermined rates.

However, lack of identification and authentication data poses operational challenges. To address this issue, Aadhaar Seeding initiative was introduced to streamline the process of linking Aadhaar numbers with ESIC for seamless authentication and verification. Currently, ESIC employs eKYC authentication facility utilizing various modes such as OTP, Biometric, and Face Authentication to seed Aadhaar and validate demographic details against the Aadhaar Database.

In this proposal, it was suggested to implementing a system for bulk Aadhaar seeding for employers, enabling them to upload a CSV file containing employee demographic details and Aadhaar numbers. The system will utilize the Yes/No authentication facility of UIDAI for verification and establish consent via SMS post-transaction with an opt-out option.

#### We Are Migrating To One Unit One Identifier

Government of India plans to do away with all employer codes being issued by separate labour enforcement agencies such as ESIC, EPFO, O/O CIC(C) and DGMS etc by replacing them with new Labour Identification Number (LIN). Your unit has already been allotted a LIN and the same can be obtained online using <http://tinyurl.com/whatismylin> Please verify the information associated with your LIN before the current employer codes are rendered useless. The procedure to verify the information is given in <http://tinyurl.com/shramsuvudhahowto> For any support please contact [help-shramsuvudha\[at\]gov\[dot\]in](mailto:help-shramsuvudha[at]gov[dot]in)
